Your Quickstart Guide to Coaching!

My prayer is that as you meet around the campfire to learn, share, and grow in your love for God and for your neighbors, a sacred fire will be kindled in your heart. I pray that a strong wind of the Spirit will blow across your mind, clearing away dead religious works and the rotten remains of bad habits and complacency—that the stifling underbrush of fear and unbelief would be erased, so that the fresh seeds of Revival may take root in the soil of your soul.

Revival is about dead things coming to life. It's a WILDFIRE of truth and freedom that cannot be contained. Its enemies cannot stop it; their only option is to get out of its way. Real revival grows with increasing intensity as it spreads across the land whose God is the Lord. Revival doesn't die as long as it has enough liberty-loving people to fuel it.

This kind of sacred fire begins in the heart by God's grace, through faith, and then spreads to your home, your church, your schools, your county, your state, and to your whole nation—literally releasing heaven upon the earth. It's time for the next Great Awakening.

Over these next few pages, it is my desire to equip you with the essential tools and resources you need to be successful as a Campfire Coach, creating and spreading your own WILDFIRE of truth and freedom within your sphere of influence!

Let's get started!

What To Do First

Your Mission: Identify your "Why" - Get clear on why you are doing this in the first place. This statement will keep you centered and remind you of your mission. Look at your statement if you ever find yourself doubting your ability to do this. *(for example: "I am leading classes because I want others to know and understand the freedoms and rights assured to us from our founding documents" or "I am doing this for my grandchildren, so that they may know the freedoms that I knew growing up")*

Your Vision: Have some fun with this one, but write a statement describing how you'd like your classes to go. This is a forward thinking vision of what you want to see, even though it hasn't happened yet. *(for example: "My classes start on time, equip people with vital information, and end with both hope and a clear call to action")* Don't forget: *Duty is Ours, Results are God's!*

Your 1st Decision: When to Start?

10-video training series;

Start Date

Each video runs between 14-24 minutes long and includes questions for discussion in the companion student workbook - **locate and download in the Class Videos section of your Coach Dashboard.** Depending on your available or desired timeframe, you could present over 10-weeks, 5-weeks (2 videos/session) or even as a Crash Course in a single day! It's up to you!
